EDUCATION

2021-Present
NORTH SOUTH UNIVERSITY

- Computer Science and Engineering

2019
KHILGAON MODEL COLLEGE

- H.S.C (Science)
- GPA: 4.82/ 5.0

SKILLS

- Typescript
- React
- React Native
- Redux
- Node Js
- Mongodb
- Mongoose
- Express Js
- Firestore
- Mysql
- Expo
- Mui
- Tailwind Css
- Antd
- Aws
- CI/CD

LANGUAGES

- English (Fluent)
- Bangla (Fluent)

PROFILE

Experienced Full Stack Developer with 4 years of expertise in building scalable, performant web applications using the MERN stack. Skilled in developing modern web applications with React.js, Node.js, Express.js, and MongoDB. Passionate about leveraging TypeScript for type safety and AWS for deploying cloud-based solutions. Strong proficiency in state management with Redux Toolkit and data modeling with Mongoose. Adept at collaborating with cross-functional teams to deliver high-quality software and solving complex problem

WORK EXPERIENCE

- IntroBangla Technologies** 10/2023-11/2025
Full Stack Developer
 - Developed full-stack web applications with React.js, Node.js, and MongoDB, integrating Redux for efficient state management.
 - Built RESTful APIs with Express.js, optimized MongoDB queries, and utilized AWS services (S3, EC2) for cloud hosting.
 - Led the transition to TypeScript, ensuring type safety, while collaborating with teams and writing tests for high-quality code.
- Risosi** 04/2023-08/2023
React Native Developer
 - Developed cross-platform mobile applications using React Native, ensuring seamless performance on both iOS and Android.
 - Integrated Redux for state management, optimized navigation, and implemented APIs for smooth data flow and interaction.
 - Utilized native modules and third-party libraries to enhance app functionality, while writing unit and integration tests for reliable code.
- Alijahan International** 01/2022 - 03/2023
Full Stack Developer
 - Architected and developed full-stack applications using React.js, Node.js, and MongoDB, integrating Redux for state management and Express.js for RESTful APIs. Utilized AWS services for cloud hosting and led the transition to TypeScript, improving type safety and reducing runtime errors. Collaborated across teams to implement features, optimize performance, and ensure code quality through unit and integration tests.

KEY PROJECTS

One Store (E-Commerce Platform)

- Developed a fully functional e-commerce platform with React.js, Node.js, Express.js, and MongoDB, integrating Redux Toolkit for state management and AWS services for image uploads and hosting. Built backend APIs with Express.js and Mongoose, handling cart data and user authentication seamlessly.
